

What's On Tap

at Consolidated Public Water Supply District No. 1 of Boone County

Consolidated Water recently navigated a fork in the road of District leadership

We extend best wishes to District General Manager, Bob Leonard, upon his August retirement after more than 11 years of service. During Bob's tenure the District experienced growth of more than 18% in number of water services and completed multiple projects to upgrade and enhance water service for District patrons. The District extends sincere thanks to Bob as he pursues all retirement has to offer.

Consolidated Water extends a warm welcome to new District General Manager, Tanner Crane. While new to the General Manager position at the District, Tanner was previously employed at the District for more than 20 years. Tanner most recently served as General Manager of PWSD No. 4 in Hallsville. Welcome home, Tanner, we're happy to have you back!

Meter Deposit Increase and Refund for Satisfactory Payment History

Effective January 1, 2023, meter deposit amounts will increase according to meter size per the following table.

Meter Size	Deposit Amount
5/8 x 3/4	\$100.00
1-inch	\$200.00
1.5-inch	\$400.00
2-inch	\$1,200.00
3-inch	\$1,200.00
4-inch	\$1,200.00
6-inch	\$1,500.00

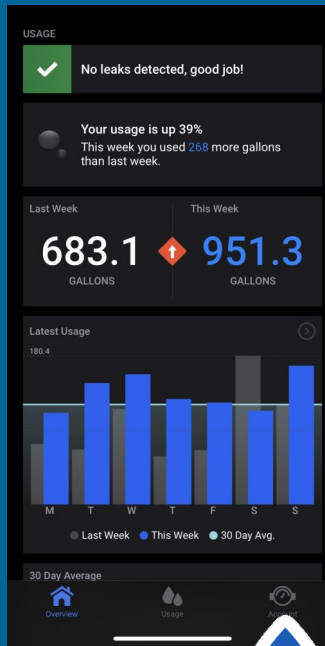

Meter deposits are designed to cover the final bill for a location, which is often more than the amount of a single monthly bill. Current deposit rates have been in effect since July 2002 and have not kept up with increases to the base rate and/or water rates over the past 20 years. The new rates have been formulated to cover a two-month bill based on a recent average of 12 months of billing history for each meter size.

In addition, the District will begin refunding meter deposits held for customers who have shown a satisfactory payment history. Satisfactory payment history is defined as no more than two (2) past due payment penalties over 18 consecutive months and no locks for non-payment during the same period.

Please contact the District office if you have any questions regarding these changes.

Our bill payment phone number changed! Call 844.916.1451 any time, day or night to pay your bill. All you need is your account number to get started.

EYE ON WATER

Contact the District billing office to see if a smart meter has been installed at your location.

- James Kyd, Director
Subdistrict III
- Alan Bennett, Director
Subdistrict IV
- Melinda Bobbitt, Director
Subdistrict V
- Tanner Crane, General Manager
- Janet Sears, Clerk

Jerome Glascock, Sub district IV Director and Board President, announced his retirement from the District’s Board of Directors effective July 31, 2022. Jerome was originally appointed to the board in May 1993 to fill the unexpired term of Estil Glascock, Jerome’s father. He went on to serve multiple uninterrupted terms until his retirement.

A review of Jerome’s 29-year tenure paints a picture of a District that has grown by more than 4,000 active service connections, more than 205 miles of waterline, and more than two million gallons of water storage, not to mention a building addition that added office space, a drive through and additional shop bays.

Jerome has been an active part of a board that is consistently driven by a desire to serve District patrons, support District staff and fulfill the District mission to deliver clean, quality, affordable drinking water. The District has been well served by Jerome’s knowledge, leadership and guidance.

Many words could describe 29 years of dedicated service, but “Thank You” really says it all.

CAPITAL IMPROVEMENT PROJECT UPDATES

Keeping infrastructure up to date and reliable is a part of our commitment to providing quality service to our customers. Capital Improvement Projects help ensure that we maintain enough capacity to meet water needs. Below are a few of the Capital Improvement Projects the District has planned for 2023.

Project	Estimated Cost
New Salem Road Upgrade: 5,800' of 12" PVC from Robbie Forbis Road to Rangeline Road Estimated Completion Summer 2023	\$500,000.00
Route J Upgrade Graham RD to Woodlandville: 22,000' of 12" PVC from the intersection of Graham RD and Booth Lane then north along the west side of Route J to Woodlandville Water Tower Estimated Completion Fall 2023	\$1,550,000.00
Route E 12" Waterline Upgrade: Upgrading approximately 5,600' of existing waterline with 12" waterline Route E from the Fire Station to Wilcox Road Estimated Completion Summer 2023	\$720,000.00
